This Key Information Document is dated 08 April 2025.

What is this product?

Type: onemarkets - Difesa Azionario Dicembre 2029 (the "Sub-Fund") is an undertaking for collective investment in transferable securities and is a sub-fund of onemarkets Italy ICAV (the "Fund") which is established as an open-ended umbrella type Irish collective asset-management vehicle with limited liability and segregated liability between sub-funds.

Term: The maturity date of this product is 31 December 2029.

Nova Investment Management Limited is entitled to terminate the contract unilaterally.

Nova Investment Management Limited may terminate the contract unilaterally inter alia in the case of liquidation or merger of the Sub-Fund. Please refer to the prospectus for additional information on early termination circumstances.

Objectives

The investment objective of the Sub-Fund is to seek to preserve the value of the Sub-Fund's initial offer price by the maturity date of 31 December 2029 and to seek to provide capital appreciation.

The Sub-Fund aims to achieve its investment objective by investing physically and/or synthetically in bonds, which can be fixed rate, floating rate or inflation linked-securities, including sub-investment grade bonds. Synthetic exposure is obtained by buying and selling credit default swaps ("CDS") on sovereign bonds. The Sub-Fund does not take short positions.

The Sub-Fund may invest up to 100% of its net assets in Italian government bonds. The Sub-Fund may also invest in government bond issued by G10 countries.

The Sub-Fund may also gain exposure to the performance of a basket CDS or credit indices focused on a diversified portfolio of European corporate issuers and to single name CDS referencing European financial corporations. The Sub-Fund may also sell CDS on government or corporate issuers to gain extra yield and align the portfolio to the maturity date.

The Sub-Fund is also exposed to the performance of a European equity index through an equity swap. The Sub-Fund can benefit from up to 100% of the positive performance of the index, up to a cap, as determined in or around the start date given market conditions. The return of the Sub-Fund is not affected by any negative performance of the index.

The Sub-Fund may also invest in cash and money market instruments.

The Sub-Fund may use financial derivative instruments for efficient portfolio management (including hedging) and/or investment purposes. The Sub-Fund aims at maintaining a leverage effect lower than 400%, calculated on the total of all financial derivative instruments' notional amounts.

The Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Sub-Fund's portfolio, subject to the stated investment objective and policies.

The Sub-Fund does not promote environmental and/or social characteristics in accordance with Article 8 of the SFDR nor does it have as its investment objective sustainable investment in accordance with Article 9 of the SFDR.

You may request the redemption of your units on a weekly basis.

Dividends are not intended to be distributed. Any income derived from the product is reinvested.

Intended retail investor: The Sub-Fund is intended to be marketed to professional investors and retail investors who are able and willing to invest in a fund with a medium investment risk and who are able and willing to forego their invested capital over a 5 year period up to the maturity date.

---	---	---	---	---	---	---

← Lower Risk Higher Risk →

 The risk indicator assumes you keep the product until 31 December 2029.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This classification rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Other risks materially relevant to the product not included in the summary risk indicator: risk associated with derivatives, counterparty risk, valuation risk, credit risk, interest rate risk, risk associated with the “long/short” strategy, risks associated with investing in distressed securities and securities in default, risks associated with leverage, risks associated with equities.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years		If you exit after 1 year		If you exit after 5 years	
Example investment: EUR 10,000					
Scenarios					
Minimum		There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs Average return each year	8,710 EUR -12.9%	8,480 EUR -3.2%		
Unfavourable	What you might get back after costs Average return each year	8,710 EUR -12.9%	8,480 EUR(*) -3.2%		
Moderate	What you might get back after costs Average return each year	9,990 EUR -0.1 %	9,440 EUR(*) -1.1%		
Favourable	What you might get back after costs Average return each year	11,280 EUR 12.8%	11,030 EUR(*) 2.0%		

(*) The unfavourable scenario occurred for an investment (in reference to benchmark: Representation of the instruments that compose the Sub-Fund) between January 2018 and January 2023. The moderate scenario occurred for an investment (in reference to benchmark: Representation of the instruments that compose the Sub-Fund) between March 2019 and March 2024. The favourable scenario occurred for an investment (in reference to benchmark: Representation of the instruments that compose the Sub-Fund) between February 2015 and February 2020.

What happens if Nova Investment Management Limited is unable to pay out?

The assets of the product are held in safekeeping by Citi Depository Services Ireland Designated Activity Company (the “Depository”). In the event of the insolvency of Nova Investment Management Limited (the “Management Company”), the product’s assets in the safekeeping of the Depository will not be affected. However, in the event of the Depository’s insolvency, or someone acting on its behalf, the product may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the product. The Depository will also be liable to the product and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

There is no investor compensation or guarantee scheme in the case of default of the Management Company or the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	175 EUR	855 EUR
Annual cost impact (*)	1.8%	1.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 0.7% before costs and -1.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (0.0% of amount invested / 0 EUR).

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	None
Exit costs	We do not charge an exit fee for this product.	None

Transaction costs	0.1 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	5 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	None

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period has been defined by taking into account the expected composition of the Sub-Fund's portfolio, as well as long-term averages of return and risk for relevant asset classes and markets.

You may request the redemption of your units on a weekly basis. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

Investors may request redemption at any time. Redemption will be performed by the Administrator normally within 10 bank business days after the relevant dealing deadline.

How can I complain?
